GENUINE  FIRECLAY

MADE IN ITALY

V01.21

REGATTA COLLECTION

A unique collection of Italian hand finished fireclay lav basins.

Like a sailing race involving skill and technique, these sinks embody the craftsmanship and artistry of Italy. Forged from fire, shaped and designed as objects of art, they are daring in their style. From beautiful appliques finished in hand painted genuine platinum and 24k gold, to artfully applied 24k gold and platinum leaf, their beauty is on full display in these original pieces for your powder room, washroom, or spa.

CLEANING AND MAINTENANCE

For years of beautiful elegance, we suggest using a PH neutral soap for cleaning. PH neutral soap is common to most gentle dish soaps. After cleaning, dry with a soft cloth.
